Item 4: Advisory Business

A. Description of the Advisory Firm

SHP Wealth Management, LLC (hereinafter "SWML") is a Limited Liability Company organized in the State of Massachusetts.

The firm was formed in December 2014 by Derek L. Gregoire, Keith W. Ellis Jr, and Matthew C. Peck. In December 2025, Bluespring Wealth Partners, LLC ("Bluespring"), a subsidiary of Kestra Holdings, acquired the equity ownership of SHP Wealth Management, LLC.

B. Types of Advisory Services

Portfolio Management Services

SWML offers ongoing portfolio management services based on the individual goals, objectives, time horizon, and risk tolerance of each client. SWML creates an Investment Policy Statement for each client, which outlines the client's current situation (income, tax levels, and risk tolerance levels) and then constructs a plan to aid in the selection of a portfolio that matches each client's specific situation. Portfolio management services include, but are not limited to, the following:

- Investment strategy
- Asset allocation
- Risk tolerance
- Personal investment policy
- Asset selection
- Regular portfolio monitoring

SWML evaluates the current investments of each client with respect to their risk tolerance levels and time horizon. SWML will request discretionary authority from clients in order to select securities and execute transactions without permission from the client prior to each transaction. Risk tolerance levels are documented in the Investment Policy Statement, which is given to each client.

SWML seeks to provide that investment decisions are made in accordance with the fiduciary duties owed to its accounts and without consideration of SWML's economic, investment or other financial interests. To meet its fiduciary obligations, SWML attempts to avoid, among other things, investment or trading practices that systematically advantage or disadvantage certain client portfolios, and accordingly, SWML's policy is to seek fair and equitable allocation of investment opportunities/transactions among its clients to avoid favoring one client over another over time. It is SWML's policy to allocate investment opportunities and transactions it identifies as being appropriate and prudent, including initial public offerings ("IPOs") and other investment opportunities that might have a limited supply, among its clients on a fair and equitable basis over time.

Pension Consulting Services

SWML offers consulting services to pension or other employee benefit plans (including but not limited to 401(k) plans). Pension consulting may include, but is not limited to:

- identifying investment objectives and restrictions
- providing guidance on various assets classes and investment options
- recommending money managers to manage plan assets in ways designed to achieve objectives
- monitoring performance of money managers and investment options and making recommendations for changes
- recommending other service providers, such as custodians, administrators and broker-dealers
- creating a written pension consulting plan

These services are based on the goals, objectives, demographics, time horizon, and/or risk tolerance of the plan and its participants.

Subadviser Services

SWML may also act as a subadviser to advisers unaffiliated with SWML. These third party advisers would outsource portfolio management services to SWML. This relationship will be memorialized in each contract between SWML and the third party advisor. This would include model portfolio construction to outside RIA's that wish to gain access to our portfolio construction and research.

Selection of Other Advisers

SWML may direct clients to third party investment advisers. Before selecting other advisers for clients, SWML will verify that all recommended advisers are properly licensed, notice filed, or exempt in the states where SWML is recommending the adviser to clients.

Financial Planning

Financial plans and financial planning may include, but are not limited to: investment planning; life insurance; health insurance; tax concerns; retirement planning; college planning; and debt/credit planning.

Educational seminars and workshops.

SWML provides periodic educational seminars and workshops to clients.

Services Limited to Specific Types of Investments

SWML generally limits its investment advice to mutual funds, fixed income securities, real estate funds (including REITs), insurance products including annuities, equities,

private equity funds, ETFs (including ETFs in the gold and precious metal sectors), treasury inflation protected/inflation linked bonds and non-U.S. securities. SWML may use other securities as well to help diversify a portfolio when applicable.

C. Client Tailored Services and Client Imposed Restrictions

SWML will tailor a program for each individual client. This will include an interview session to get to know the client's specific needs and requirements as well as a plan that will be executed by SWML on behalf of the client. SWML may use "model portfolios" together with a specific set of recommendations for each client based on their personal restrictions, needs, and targets. Clients may impose restrictions in investing in certain securities or types of securities in accordance with their values or beliefs. However, if the restrictions prevent SWML from properly servicing the client account, or if the restrictions would require SWML to deviate from its standard suite of services, SWML reserves the right to end the relationship.

D. Wrap Fee Programs

A wrap fee program is an investment program wherein the investor pays one stated fee that includes management fees, transaction costs, and certain other administrative fees. SWML does not participate in any wrap fee programs.

E. Assets Under Management

SWML has the following assets under management:

Discretionary Amounts:	Non-discretionary Amounts:	Date Calculated:
\$ 1,798,146,596	\$ 121,790,880	December 2025

Item 5: Fees and Compensation

A. Fee Schedule

Asset-Based Fees for Portfolio Management

SHP Wealth Management charges clients the following blended fee for assets under management.

Total Assets Under Management	Annual Fee
\$0 - \$500,000	1.25%
\$500,001 - \$2,000,000	1.00%
\$2,000,001 - \$3,500,000	0.85%
\$3,500,001 - \$6,000,000	0.70%
\$6,000,001 - \$8,000,000	0.60%
\$8,000,001 - \$10,000,000	0.50%
\$10,000,001 - \$15,000,000	0.40%
\$15,000,001 - \$20,000,000	0.30%
\$20,000,001 - And above	0.20%

For Example: An account valued at \$1,000,000 would incur a fee of 1.25% on the first \$500,000 and 1.0% on the next \$500,000 for a total blended fee of 1.13%

These fees are generally negotiable and the final fee schedule is attached as Exhibit II of the Investment Advisory Contract. Clients may terminate the agreement without penalty for a full refund of SWML's fees within five business days of signing the Investment Advisory Contract. Thereafter, clients may terminate the Investment Advisory Contract generally with 30 days' written notice. An average of the daily balance in the client's account throughout the billing period is used to determine the market value of the assets upon which the advisory fee is based.

Pension Consulting Services Fees

The table for pension consulting services is below:

Total Assets Under Management	Annual Fee
All Assets	50 bps

**These fees are negotiable.*

Subadviser Services Fees

SWML may also act as a subadviser or provide model portfolio construction and research to unaffiliated third-party advisers and SWML would receive a share of the fees collected from the third-party adviser's client. The fees charged are negotiable and will not exceed any limit imposed by any regulatory agency. This relationship will be memorialized in each contract between SWML and the third-party adviser.

Selection of Other Advisers Fees

SWML may direct clients to third-party investment advisers. SWML will receive its standard fee on top of the fee paid to the third party adviser. The fees shared are negotiable and will not exceed any limit imposed by any regulatory agency. The notice of termination requirement and payment of fees for third-party investment advisers will depend on the specific third-party adviser selected.

Aperio Group, LLC

Aperio Group, LLC Standard Account – Flat Fee

For Accounts not eligible for Exception Pricing (each a "Standard Account"), Sub-Adviser's annual fee will be calculated and paid by applying the flat rate below to each Standard Account.

Annual Flat Rate: 0.20% of the fair market value (FMV)

Premium Pricing

For Long-Short (LS) Accounts, the applicable premium fee is determined by the total value of long and short positions ("Gross Exposure"). The FMV is calculated by subtracting the value of all short positions from the total value of the long positions and managed cash in the LS Account.

Product	Additional Flat Fee
Gross Exposure less than or equal to 200%	0.20%
Long-Short Strategies, Gross Exposure greater than 200%, and less than or equal to 300%	0.40%

Exception Pricing – Tax-Managed Dynamic Factor Accounts

For LS Accounts implementing a Tax-Managed Dynamic Factor ("TDYF") investment strategy, the Standard Account rates and Premium Pricing above shall not apply. Instead, Sub-Adviser's fee shall be determined by applying the following flat fee schedule:

Product	Annual Fee
Long-Short TDYF Strategy, Gross Exposure less than or equal to 200%	0.45%
Long-Short TDYF Strategy, Gross Exposure greater than 200%, and less than or equal to 300%	0.90%

Client authorizes the Custodian to deduct management fees directly from the Account. Such fees are pro-rated and payable quarterly in advance using the FMV of the Assets of the Account as reasonably determined by the Sub-Adviser on the last business day of each quarter.

Any fee for any period less than a quarter, either upon commencement or termination of this Agreement, will be pro-rated according to the portion of the quarter to which it relates, and any unearned portion of the prepaid fees will be refunded.

Certain Benchmarks and custom strategies may incur additional fees not specified above, subject to written approval by Adviser. Fees may also include pro-rated adjustments for deposits and withdrawals made in the previous quarter but will not include pro-rated adjustments for any investment strategy changes made in the previous quarter.

The fees described in this section are in addition to any transaction fees charged by the Custodian or broker for the Account.

AllianceBernstein L.P

SWML may specifically direct clients to AllianceBernstein L.P.. The annual fee schedule is as follows:

Strategy Name	Third Party Annual Fee
AB Municipal High Quality Fixed Income SMA	0.13%
AB Customized Municipal Ladders SMA	0.13%
AB Municipal Income Fixed Income SMA	0.18%
AB Municipal Impact Fixed Income SMA	0.18%
AB Tax Aware Fixed Income SMA	0.20%

O'Shaughnessy Asset Management, L.L.C

AUM Range	RIA Annual Fee	TPMM Annual Fee	Total Client Annual Fee
\$0 – \$25,000,000	0.00%	0.45%	0.45%

The fees will be paid quarterly and in advance. This fee will be charged in addition to the client's normal SHP Wealth Management advisory fee.

The upfront quarterly Management Fee is equal to the i) previous quarter-end value (or closing value on the day preceding the funding date if Account is initially funded during the period) of the Reference Security multiplied by; ii) the Target Program Units multiplied by; iii) the respective Annual Management Fee multiplied by; iv) the actual days in the upcoming quarter divided by; v) the actual number of days in the particular year.

Additional contributions: For any Reference Security that was included at the beginning of the quarter, any subsequent contributions will be billed at the Reference Security closing value on the day preceding the contribution. Tiers or fee breaks will be calculated based on the sum of the previous billed amount and the additional contribution.

Redemptions: Redemptions will result in pro-rated rebated fees based upon the previous billed values for those Reference Units on a "last in" basis. For the avoidance of doubt, rebated fees are intended to be a return of prepaid fees and not be affected by appreciation or depreciation of the Reference Units during the period.

The Reference Security or Target Program Amount may only be adjusted by the Client in writing. The fee is related to the market value of the Target Program Units, which may vary over time.

The Management Fee is distinct from and does not include any fees related to the

execution, settlement and custody of assets that will be charged separately to, and paid directly by, the Account to executing brokers and/or the Custodian.

Financial Planning Fees

Clients may terminate the agreement without penalty for a full refund of SWML's fees within five business days of signing the Financial Planning Agreement. Thereafter, clients may terminate the Financial Planning Agreement generally upon written notice.

Hourly Fees

The negotiated hourly fee for these services is between \$100 and \$500. Fees are charged in arrears upon completion.

Educational Seminar/Workshop Fees

SWML does not charge a fee for the educational seminars and workshops. They are complimentary.

B. Payment of Fees

Payment of Asset-Based Portfolio Management Fees

Portfolio management fees are withdrawn directly from the client's accounts with client's written authorization or may be invoiced and billed directly to the client; clients may select the method in which they are billed. Fees are paid monthly in arrears.

Payment of Pension Consulting Services Fees

Pension consulting fees are withdrawn directly from the client's accounts with client's written authorization. Fees are paid depending on where the pension is being held.

Payment of Subadviser Fees

Subadviser fees may be withdrawn from client's accounts or clients may be invoiced for such fees, as disclosed in each contract between SWML and the applicable third-party adviser. Fees can be paid via check or ETF.

Payment of Selection of Other Advisers Fees

Fees for selection of AllianceBernstein L.P. or Aperio Group, LLC, each acting as a separate third-party adviser, are withdrawn by the applicable adviser directly from client accounts quarterly in advance.

SWML fees withdrawn directly from the client's accounts with client's written authorization or may be invoiced and billed directly to the client; clients may select the method in which they are billed. Fees are paid monthly in arrears.

Payment of Financial Planning Fees

Financial planning fees are paid via check or credit card.

Hourly financial planning fees are paid in arrears upon completion.

Payment of Educational Seminar/Workshop Fees

SWML does not charge a fee for the educational seminars and workshops. They are complimentary.

C. Client Responsibility For Third Party Fees

Clients are responsible for the payment of all third-party fees (i.e. custodian fees, brokerage fees, mutual fund fees, transaction fees, etc.) although under certain circumstances, SHPWM may pay certain fees charged to the client. Those fees are separate and distinct from the fees and expenses charged by SWML. Please see Item 12 of this brochure regarding broker-dealer/custodian.

D. Prepayment of Fees

SWML collects its fees in arrears for all services other than providing model portfolio construction and research. Fees for that service are paid quarterly in advance, as disclosed in each contract between SWML and the applicable third-party adviser.

E. Outside Compensation For the Sale of Investment Products to Clients

Supervised persons of SWML receive commissions for the sale of insurance products to clients of SWML. Commissions from insurance products are a significant source of compensation and are paid in addition to advisory fees. When determining the asset based advisory fees, the assets that are allocated into the insurance products are included in the calculation but are not subject to the advisory fee. Receipt of commissions presents a conflict of interest and gives the supervised person an incentive to recommend products based on the compensation received rather than on the client's needs. When recommending the sale of products for which the supervised receives compensation, SWML will document the conflict of interest in the client file and inform the client of the conflict of interest.

Our clients always have the option to purchase recommended products through other brokers or agents that are not affiliated with SWML. Please see additional disclosures about this conflict in Item 10C of this brochure.

Item 6: Performance-Based Fees and Side-By-Side Management

SWML does not accept performance-based fees or other fees based on a share of capital gains on or capital appreciation of the assets of a client.

Item 7: Types of Clients

SWML generally provides advisory services to the following types of clients:

- † Individuals
- † High-Net-Worth Individuals
- † Pension and Profit Sharing plans
- † Charitable Organizations
- † Corporations

Minimum Account Size

There is an account minimum of \$1,000,000, which may be waived by SWML in its discretion.

Item 8: Methods of Analysis, Investment Strategies, and Risk of Investment Loss

A. Methods of Analysis and Investment Strategies

Methods of Analysis

SWML's methods of analysis include fundamental analysis, cyclical analysis and modern portfolio theory.

Fundamental analysis involves the analysis of financial statements, the general financial health of companies, and/or the analysis of management or competitive advantages.

Cyclical analysis involves the analysis of business cycles to find favorable conditions for buying and/or selling a security.

Modern portfolio theory is a theory of investment that attempts to maximize portfolio expected return for a given amount of portfolio risk, or equivalently minimize risk for a given level of expected return, each by carefully choosing the proportions of various asset.

Investment Strategies

SWML uses long term trading.

Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

B. Material Risks Involved

Methods of Analysis

Fundamental analysis concentrates on factors that determine a company's value and expected future earnings. This strategy would normally encourage equity purchases in stocks that are undervalued or priced below their perceived value. The risk assumed is that the market will fail to reach expectations of perceived value.

Cyclical analysis assumes that the markets react in cyclical patterns which, once identified, can be leveraged to provide performance. The risks with this strategy are twofold: 1) the markets do not always repeat cyclical patterns; and 2) if too many investors begin to implement this strategy, then it changes the very cycles these investors are trying to exploit.

Modern Portfolio Theory assumes that investors are risk adverse, meaning that given two portfolios that offer the same expected return, investors will prefer the less risky one.

Thus, an investor will take on increased risk only if compensated by higher expected returns. Conversely, an investor who wants higher expected returns must accept more risk. The exact trade-off will be the same for all investors, but different investors will evaluate the trade-off differently based on individual risk aversion characteristics. The implication is that a rational investor will not invest in a portfolio if a second portfolio exists with a more favorable risk-expected return profile – i.e., if for that level of risk an alternative portfolio exists which has better expected returns.

Investment Strategies

Long term trading is designed to capture market rates of both return and risk. Due to its nature, the long-term investment strategy can expose clients to various types of risk that will typically surface at various intervals during the time the client owns the investments. These risks include but are not limited to inflation (purchasing power) risk, interest rate risk, economic risk, market risk, and political/regulatory risk.

Selection of Other Advisers: Although SWML will seek to select only money managers who will invest clients' assets with the highest level of integrity, SWML's selection process cannot ensure that money managers will perform as desired and SWML will have no control over the day-to-day operations of any of its selected money managers. SWML would not necessarily be aware of certain activities at the underlying money manager level, including without limitation a money manager's engaging in unreported risks, investment "style drift" or even regulator breach or fraud.

Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

C. Risks of Specific Securities Utilized

Clients should be aware that there is a material risk of loss using any investment strategy. The investment types listed below (leaving aside Treasury Inflation Protected/Inflation Linked Bonds) are not guaranteed or insured by the FDIC or any other government agency.

Mutual Funds: Investing in mutual funds carries the risk of capital loss and thus you may lose money investing in mutual funds. All mutual funds have costs that lower investment returns. The funds can be of bond “fixed income” nature (lower risk) or stock “equity” nature.

Equity investment generally refers to buying shares of stocks in return for receiving a future payment of dividends and/or capital gains if the value of the stock increases. The value of equity securities may fluctuate in response to specific situations for each company, industry conditions and the general economic environments.

Fixed income investments generally pay a return on a fixed schedule, though the amount of the payments can vary. This type of investment can include corporate and government debt securities, leveraged loans, high yield, and investment grade debt and structured products, such as mortgage and other asset-backed securities, although individual bonds may be the best-known type of fixed income security. In general, the fixed income market is volatile and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk, liquidity risk, call risk, and credit and default risks for both issuers and counterparties. The risk of default on treasury inflation protected/inflation linked bonds is dependent upon the U.S. Treasury defaulting (extremely unlikely); however, they carry a potential risk of losing share price value, albeit rather minimal. Risks of investing in foreign fixed income securities also include the general risk of non-U.S. investing described below.

Exchange Traded Funds (ETFs): An ETF is an investment fund traded on stock exchanges, similar to stocks. Investing in ETFs carries the risk of capital loss (sometimes up to a 100% loss in the case of a stock holding bankruptcy). Areas of concern include the lack of transparency in products and increasing complexity, conflicts of interest and the possibility of inadequate regulatory compliance. Precious Metal ETFs (e.g., Gold, Silver, or Palladium Bullion backed “electronic shares” not physical metal) specifically may be negatively impacted by several unique factors, among them (1) large sales by the official sector which own a significant portion of aggregate world holdings in gold and other precious metals, (2) a significant increase in hedging activities by producers of gold or other precious metals, (3) a significant change in the attitude of speculators and investors.

Real Estate funds (including REITs) face several kinds of risk that are inherent in the real estate sector, which historically has experienced significant fluctuations and cycles in performance. Revenues and cash flows may be adversely affected by: changes in local real estate market conditions due to changes in national or local economic conditions or changes in local property market characteristics; competition from other properties

offering the same or similar services; changes in interest rates and in the state of the debt and equity credit markets; the ongoing need for capital improvements; changes in real estate tax rates and other operating expenses; adverse changes in governmental rules and fiscal policies; adverse changes in zoning laws; the impact of present or future environmental legislation and compliance with environmental laws.

Annuities are a retirement product for those who may have the ability to pay a premium now and want to guarantee they receive certain monthly payments or a return on investment later in the future. Annuities are contracts issued by a life insurance company designed to meet requirement or other long-term goals. An annuity is not a life insurance policy. Variable annuities are designed to be long-term investments, to meet retirement and other long-range goals. Variable annuities are not suitable for meeting short-term goals because substantial taxes and insurance company charges may apply if you withdraw your money early. Variable annuities also involve investment risks, just as mutual funds do.

Private equity funds carry certain risks. Capital calls will be made on short notice, and the failure to meet capital calls can result in significant adverse consequences, including but not limited to a total loss of investment.

Non-U.S. securities present certain risks such as currency fluctuation, political and economic change, social unrest, changes in government regulation, differences in accounting and the lesser degree of accurate public information available.

Past performance is not indicative of future results. Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

Item 9: Disciplinary Information

A. Criminal or Civil Actions

There are no criminal or civil actions to report.

B. Administrative Proceedings

There are no Administrative Proceedings to report.

C. Self-regulatory Organization (SRO) Proceedings

There are no self-regulatory organization proceedings to report.

Item 10: Other Financial Industry Activities and Affiliations

A. Registration as a Broker/Dealer or Broker/Dealer Representative

Neither SWML nor its representatives are registered as, or have pending applications to become, a broker/dealer or a representative of a broker/dealer.

B. Registration as a Futures Commission Merchant, Commodity Pool Operator, or a Commodity Trading Advisor

Neither SWML nor its representatives are registered as or have pending applications to become either a Futures Commission Merchant, Commodity Pool Operator, or Commodity Trading Advisor or an associated person of the foregoing entities.

C. Registration Relationships Material to this Advisory Business and Possible Conflicts of Interests

Supervised persons of SWML are independent licensed insurance agents of SHP Financial, LLC. They will offer clients advice or products from those activities. These activities create a conflict of interest as supervised persons have an incentive to recommend insurance products based on commissions or other benefits received from the insurance company, rather than on the client's needs. Additionally, the offer and sale of insurance products by supervised persons of SWML are not made in their capacity as fiduciaries, and products are limited to only those offered by certain insurance providers.

SWML addresses this conflict of interest by requiring its supervised persons to act in the best interest of the client, including when acting as an insurance agent. SWML periodically reviews recommendations by its supervised persons to assess whether they are based on an objective evaluation of each client's risk profile and investment objectives rather than on the receipt of any commissions or other benefits. SWML will disclose in advance how it or its supervised persons are compensated and will disclose conflicts of interest involving any advice or service provided. At no time will an advisory client be required to use the outside services of any supervised person as a condition of receiving advisory services of SWML.

No client is under any obligation to purchase any insurance product. Insurance products recommended by SWML supervised persons may also be available from other providers on more favorable terms, and clients can purchase insurance products recommended by SWML or its supervised persons through other, un-affiliated insurance agencies.

Bluespring Wealth Partners, LLC ("Bluespring") is a subsidiary of Kestra Holdings, which owns, directly or indirectly, numerous other businesses, including investment advisers, insurance agencies, broker-dealers, trust companies, and other service providers (collectively, "Kestra Affiliates").

As a result of Bluespring Wealth Partners, LLC's ownership of SWML, we are affiliated with Kestra Affiliates. The scope of these affiliations and Kestra Holdings' ongoing acquisitions create potential conflicts of interest. Within the Kestra organization, production incentives may be established to maximize revenue. As a result, associated persons employed by or registered with Kestra Affiliates may have an incentive to recommend products and services offered by Kestra Affiliates. For example, SWML may recommend that a client use Arden Trust Company for corporate trustee services.

We are affiliated with Arden Trust Company ("Arden"), a Delaware limited purpose trust company providing corporate trustee services. The recommendation of Arden for trust or other services creates a conflict of interest because our affiliate would receive additional compensation as a result of providing those services. You are under no obligation to use Arden as a corporate trustee, and alternative providers are available.

Bluespring and the Kestra Affiliates are ultimately owned by Kingfisher Topco Holdings, LP ("Kingfisher"). Some of our advisors and associated persons own equity in Kingfisher and may benefit if the Kestra Affiliates perform well financially. This ownership creates a conflict of interest because advisors owning equity in Kingfisher may have an incentive to recommend services offered by Kestra Affiliates. We seek to mitigate these conflicts by recommending products and services based on your best interests and not solely on affiliation.

Personnel and Information Sharing

All Bluespring Affiliates share Kestra Holdings as the ultimate parent company. Affiliates also share senior management teams and have the same or similar operating policies and procedures. Bluespring's Affiliates provide services to each other which help each other deliver and enhance the services offered to clients. The services provided by affiliates include, for example, marketing, human resources, IT systems and support, administrative, and accounting services.

SWML recommends securities backed lines of credit ("SBLOC") through an agreement with Goldman Sachs Private Bank. Although SWML does not receive any financial compensation from offering these loans, a recommendation to engage in a SBLOC presents a conflict of interest as the securities that serve as collateral for these loans are part of SWML's assets under management and subject to fees. By recommending the SBLOC as compared to a liquidation, the securities used collateral would continue to be billed which may encourage SWML to offer the loan and maintain the assets under management for billing and revenue purposes. In order to mitigate the conflict of interest and to ensure the client is learned enough to participate in the loan, SWML has their own internal form which must be signed by the client, highly recommends not exceeding an amount of 50% of loan to value which is lower than the 65% limit provided by Goldman Sachs, and must confirm that the client is an accredited investor as defined by Rule 501 of Regulation D by the U. S. Securities and Exchange Commission. This internal form is in addition to the normal due diligence of gathering a comprehensive knowledge of the client's financial situation and thorough documentation of the decision-making process. There are various risks for the client that are associated with an SBLOC which are, but not

limited to, a significant increase in interest rates which would increase the cost of borrowing, an adverse market movement which would require a collateral call and either a deposit of additional monies or a subsequent liquidation of securities at depressed valuations which may be compounded by adverse tax consequences.

D. Selection of Other Advisers or Managers and How This Adviser is Compensated for Those Selections

SWML receives compensation from Triad Partners ("Triad"), for the sale of insurance products to clients of SWML. This compensation may be in the form of commissions, bonuses, sales awards, incentive trips, attendance to seminars, conferences, and entertainment events, marketing reimbursements, speaking fees, consulting fees, and other economic benefits. Some of these benefits, in part, are contingent upon the cumulative amount of business referred to Triad, such as total annuity and life insurance production through Triad. The achievement of particular sales volumes may qualify SWML and/or its supervised persons for additional cash and non-cash compensation. In addition, Triad Partners also provides SWML with significant marketing assistance, technology, and business development tools to acquire new clients, as well as with certain back office and operational support.

Four of SWML's supervised person's, Derek L. Gregoire, Keith W. Ellis Jr., Matthew C. Peck, and Michelle Short, own Four Hands, LLC ("Four Hands"). Four Hands has minor ownership interests in Triad, which SHP may use to write annuity and life insurance business through. SWML will disclose in advance how it or its supervised persons are compensated and will disclose conflicts of interest involving any advice or service provided. At no time will an advisory client be required to use the outside services of any supervised person as a condition of receiving advisory services of SWML. No client is under any obligation to purchase any insurance product.

SWML may direct clients to third-party investment advisers. Clients will pay SWML its standard fee in addition to the standard fee for the advisers to which it directs those clients. The fees will not exceed any limit imposed by any regulatory agency. SWML will always act in the best interests of the client, including when determining which third party investment adviser to recommend to clients. SWML will ensure that all recommended advisers are exempt, licensed or notice filed in the states in which SWML is recommending them to clients.

Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

A. Code of Ethics

SWML has a written Code of Ethics that covers the following areas: Prohibited Purchases and Sales, Insider Trading, Personal Securities Transactions, Exempted Transactions, Prohibited Activities, Conflicts of Interest, Gifts and Entertainment, Confidentiality, Service on a Board of Directors, Compliance Procedures, Compliance with Laws and Regulations, Procedures and Reporting, Certification of Compliance, Reporting Violations, Compliance Officer Duties, Training and Education, Recordkeeping, Annual Review, and Sanctions. SWML's Code of Ethics is available free upon request to any client or prospective client.

B. Recommendations Involving Material Financial Interests

SWML does not recommend that clients buy or sell any security in which a related person to SWML or SWML has a material financial interest.

C. Investing Personal Money in the Same Securities as Clients

From time to time, representatives of SWML may buy or sell securities for themselves that they also recommend to clients. This may provide an opportunity for representatives of SWML to buy or sell the same securities before or after recommending the same securities to clients resulting in representatives profiting off the recommendations they provide to clients. Such transactions may create a conflict of interest. SWML will always document any transactions that could be construed as conflicts of interest and will never engage in trading that operates to the client's disadvantage when similar securities are being bought or sold.

D. Trading Securities At/Around the Same Time as Clients' Securities

From time to time, representatives of SWML may buy or sell securities for themselves at or around the same time as clients. This may provide an opportunity for representatives of SWML to buy or sell securities before or after recommending securities to clients resulting in representatives profiting off the recommendations they provide to clients. Such transactions may create a conflict of interest; however, SWML will never engage in trading that operates to the client's disadvantage if representatives of SWML buy or sell Securities at or around the same time as clients.

Item 12: Brokerage Practices

A. Factors Used to Select Custodians and/or Broker/Dealers

Custodians/broker-dealers will be recommended based on SWML's duty to seek "best execution," which is the obligation to seek execution of securities transactions for a client on the most favorable terms for the client under the circumstances. Clients will not necessarily pay the lowest commission or commission equivalent, and SWML may also consider the market expertise and research access provided by the brokerdealer/custodian, including but not limited to access to written research, oral communication with analysts, admittance to research conferences and other resources provided by the brokers that may aid in SWML's research efforts. SWML will never charge a premium or commission on transactions, beyond the actual cost imposed by the brokerdealer/custodian.

SWML recommends Fidelity Brokerage Services LLC and Charles Schwab & Co., Inc

1. Research and Other Soft-Dollar Benefits

While SWML has no formal soft dollar program in which soft dollars are used to pay for third party services, SWML may receive research, products, or other services from custodians and broker-dealers in connection with client securities transactions ("soft dollar benefits"). SWML may enter into soft-dollar arrangements consistent with (and not outside of) the safe harbor contained in Section 28(e) of the Securities Exchange Act of 1934, as amended. There can be no assurance that any particular client will benefit from soft dollar research, whether or not the client's transactions paid for it, and SWML does not seek to allocate benefits to client accounts proportionate to any soft dollar credits generated by the accounts. SWML benefits by not having to produce or pay for the research, products or services, and SWML will have an incentive to recommend a broker-dealer based on receiving research or services. Clients should be aware that SWML's acceptance of soft dollar benefits may result in higher commissions charged to the client.

2. Brokerage for Client Referrals

SWML receives no referrals from a broker-dealer or third party in exchange for using that broker-dealer or third party.

3. Clients Directing Which Broker/Dealer/Custodian to Use

SWML may permit clients to direct it to execute transactions through a specified broker-dealer. If a client directs brokerage, then the client will be required to acknowledge in writing that the client's direction with respect to the use of brokers supersedes any authority granted to SWML to select brokers; this direction may result in higher commissions, which may result in a disparity between free and directed

accounts; and trades for the client and other directed accounts may be executed after trades for free accounts, which may result in less favorable prices, particularly for illiquid securities or during volatile market conditions. Not all investment advisers allow their clients to direct brokerage.

B. Aggregating (Block) Trading for Multiple Client Accounts

SWML maintains the ability to block trade purchases and sales across accounts. When more than one account is trading a particular stock or ETF on the same day, block trading may be used to get identical pricing on the trades. Declining to block trade can cause more expensive trades for clients.

C. Trade Errors

SWML has implemented procedures designed to prevent trade errors; however, trade errors in client accounts cannot always be avoided. Consistent with our fiduciary duty, it is the policy of SWML to correct trade errors in a manner that is fair to the client. In cases where the client causes the trade error, the client will be responsible for any loss resulting from the correction. Depending on the specific circumstances of the trade error, the client will not be able to receive any gains generated as a result of the error correction. In all situations where the client does not cause the trade error, the client will be made whole and any loss resulting from the trade error will be absorbed by SWML if the error was caused by the firm. If the error is caused by the broker-dealer, the broker-dealer will be responsible for covering all trade error costs. The trade will be moved to an error account and will be dealt with at the discretion of the broker dealer.

Item 13: Reviews of Accounts

A. Frequency and Nature of Periodic Reviews and Who Makes Those Reviews

All client accounts for SWML's advisory services provided on an ongoing basis are reviewed at least quarterly by Matthew C Peck, CFP®, CIMA®, President and CCO or the assigned IAR with regard to clients' respective investment policies and risk tolerance levels.

All financial planning accounts are reviewed upon financial plan creation and plan delivery by Matthew C Peck, CFP®, CIMA®, President and CCO or the assigned IAR. There is only one level of review for financial planning, and that is the total review conducted to create the financial plan.

B. Factors That Will Trigger a Non-Periodic Review of Client Accounts

Reviews may be triggered by material market, economic or political events, or by changes in client's financial situations (such as retirement, termination of employment, physical move, a change of health, or inheritance).

With respect to financial plans, SWML's services will generally conclude upon delivery of the financial plan.

C. Content and Frequency of Regular Reports Provided to Clients

Each client of SWML's advisory services provided on an ongoing basis will receive a monthly report detailing the client's account, including assets held, asset value, and calculation of fees. This written report will come from the custodian.

Each financial planning client will receive the financial plan upon completion.

Item 14: Client Referrals and Other Compensation

A. Economic Benefits Provided by Third Parties for Advice Rendered to Clients (Includes Sales Awards or Other Prizes)

Please see Item 10D for a description of compensation and benefits that SWML and/or its supervised persons receive from Triad Partners.

B. Compensation to Non – Advisory Personnel for Client Referrals

SWML has a reciprocal referral arrangement with attorney Keith McManus of McManus Estate Planning. SWML routinely refers clients to and receives referrals from Mr. McManus. Related to this arrangement, SWML pays the costs of certain marketing events of Mr. McManus. In addition, supervised persons of SWML who are insurance agents share insurance commissions with Keith McManus on mutual clients.

SWML may retain third parties to act as solicitors/promoters for SWML's investment management services. Compensation with respect to the foregoing will be fully disclosed to each client to the extent required by applicable law. SWML will ensure each solicitor/promoter is properly exempt or registered in all appropriate jurisdictions.

Item 15: Custody

SHP Wealth Management has Custody due to 3rd party Standing Letters of Authorizations. Also, when advisory fees are deducted directly from client accounts at client's custodian, SWML will be deemed to have limited custody of client's assets and must have written authorization from

the client to do so. Clients will receive all account statements and billing invoices that are required in each jurisdiction, and they should carefully review those statements for accuracy.

Item 16: Investment Discretion

SWML provides discretionary investment advisory services to clients. The Investment Advisory Contract established with each client sets forth the discretionary authority for trading. Where investment discretion has been granted, SWML generally manages the client's account and makes investment decisions without consultation with the client as to when the securities are to be bought or sold for the account, the total amount of the securities to be bought/sold, what securities to buy or sell, or the price per share. In some instances, SWML's discretionary authority in making these determinations may be limited by conditions imposed by a client (in investment guidelines or objectives, or client instructions otherwise provided to SWML).

Item 17: Voting Client Securities (Proxy Voting)

SWML will not ask for, nor accept voting authority for client securities. Clients will receive proxies directly from the issuer of the security or the custodian. Clients should direct all proxy questions to the issuer of the security.

Item 18: Financial Information

A. Balance Sheet

SWML neither requires nor solicits prepayment of more than \$1,200 in fees per client, six months or more in advance, and therefore is not required to include a balance sheet with this brochure.

B. Financial Conditions Reasonably Likely to Impair Ability to Meet Contractual Commitments to Clients

Neither SWML nor its management has any financial condition that is likely to reasonably impair SWML's ability to meet contractual commitments to clients.

C. Bankruptcy Petitions in Previous Ten Years

SWML has not been the subject of a bankruptcy petition in the last ten years.
